html の書き方を知る

- 1 Web ページは、見た目を整える <a href="https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://
 - ●html は<u>タグでくくる</u>ことで命令を作っていきます。
 - ●タグの描き方 → 「 <タグ名> ここに命令や文字を書く </タグ名> 」

練習 1 <body>タグの中に次の文章を打ち込んでみよう。 ※先生が打ち込んだ文は自分 ver に変えてください

☆の文字の大きさは一定です。

ここで使う HTML の主なタグ <h1> ~ </h1> 一番大きい文字で表示 <h4> ~ </h4> 4番目に大きい文字で表示 ~ 段落を明示する
 改行 行を変えて表示する

練習 2 monaca のリンク先(https://edu.monaca.io/)をはりつけよう

基礎課題 1 向陽高校ホームページのリンク先と映画キングダムのホームページのリンク 先(映画キングダムで検索)を貼り付けよう

☆リンク先はページを開いて上にある「https~」から始まるものをコピーします。

☆改行したい場合は
タグを改行したい行の最後に持ってきます。

基礎課題2 <button>タグを追加してみよう。

|発展課題 1 | ボタンタグを押したら「すずめの戸締り」の映画ホームページが | 開くようにしよう。

> <u>手順 1</u> 基礎課題 1 のようにまずはすずめの戸締りに飛ぶようにする 手順 2 基礎課題 2 で作ったボタンと手順 1 を合わせる
